

ScottyLabs Sponsorship Packet

2025-2026

About Us

Our mission is to foster a community of **passionate**, **interdisciplinary leaders** that use design and technology to achieve more.

As a key part of the fabric of CMU for over 15 years, we have deep roots and connections where it counts.

About ScottyLabs

ScottyLabs is Carnegie Mellon's **premier builder club**. We are a group of **engineers**, **designers**, and **organizers**, passionate about building useful software projects and hosting educational events for our community.

What Sets Us Apart

- Our members are among the best engineers and designers at CMU.
- ScottyLabs apps reach **over 70%** of CMU students.
- **TartanHacks**, with **700+** hackers, reaches builders at CMU and **globally**

Our Members

As our sponsor, you will have exclusive, in-person access to our **talented member pool** and the opportunity to **reach all Carnegie Mellon students** through presence and recruiting events.

1338 current CMU students on our mailing list

1,715 members and alums on Slack workspace

12.5k monthly users of ScottyLabs projects

OUTREACH

EVENTS

Projects

ScottyLabs designs and develops a variety of tech services geared towards improving the CMU campus experience, and incubates new projects borne from ideas of our members.

CMUEats

cmueats.com | 11K users/mo

Our one-stop-shop for navigating campus dining locations. Current hours, menus, and daily specials are just a click away.

CMU Courses

cmucourses.com | 9K users/mo

CMU's go-to course browser. CMU Courses is the only service with all the information you need to plan your courses.

CMUMaps

cmumaps.com | 700 users/mo

Providing detailed maps with indoor room-level navigation for the entire Carnegie Mellon campus.

Hackathon Suite

register.tartanhacks.com | 1K users

An in-house suite of tools for running hackathons, for CMU and beyond.

CMUCal

[prototype](#) | Lab S24 Batch

An innovative calendar management system for CMU students that aggregates resources into a central database.

cmuGPT

[github](#) | Lab F24 Batch

An AI assistant with functionality built specifically for CMU students.

CMU Study

[cmustudy.com](#) | Lab F24 Batch

A platform to connect students and form study groups at the times that work best for them, making study groups accessible.

Green

[deck](#) | Lab S24 Batch

Grocery tracking for college housemates.
Receipt + Shopping list management

And more...

TARTAN HACKS '25

TartanHacks

TartanHacks is the most-attended, longest-running, and **highest-quality hackathon** in the Greater Pittsburgh Region. Every year for over a decade, we have provided over 400 students from 80+ schools the opportunity to showcase their skills (while having fun!) in a 24-hour hackathon.

The three pillars of TartanHacks are **innovation**, **creation**, and **education**. We encourage and welcome everyone to participate, as we aim to make TartanHacks a friendly environment for all participants, especially for underrepresented and minority groups.

TartanHacks 2026 will be February 6-7 @ CMU Pittsburgh

TartanHacks 2025 Stats:

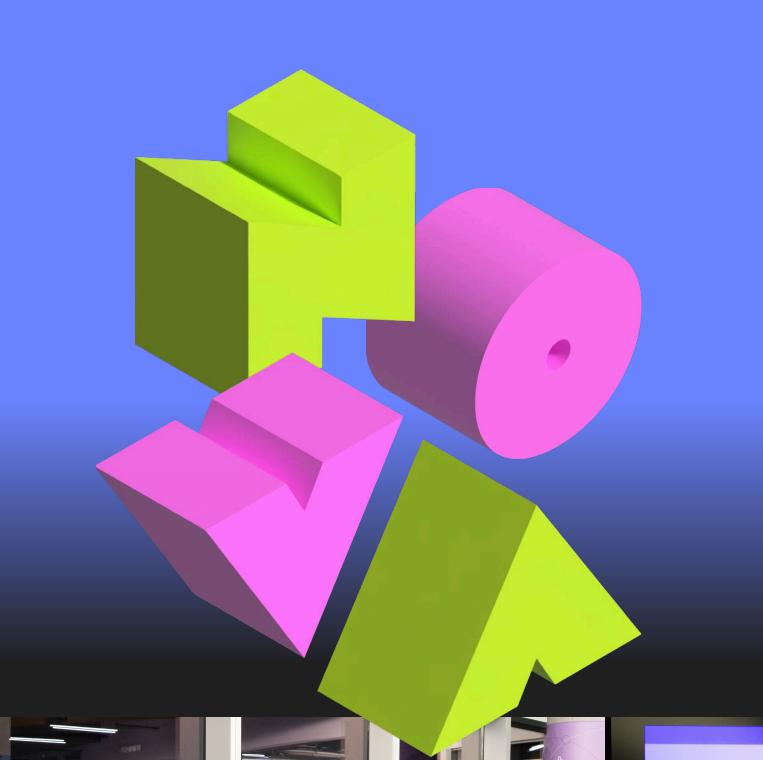

1,452 applications received

762 hackers

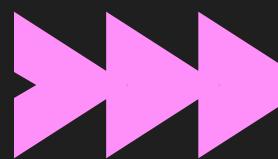

176 submitted projects

51% first-time hackers

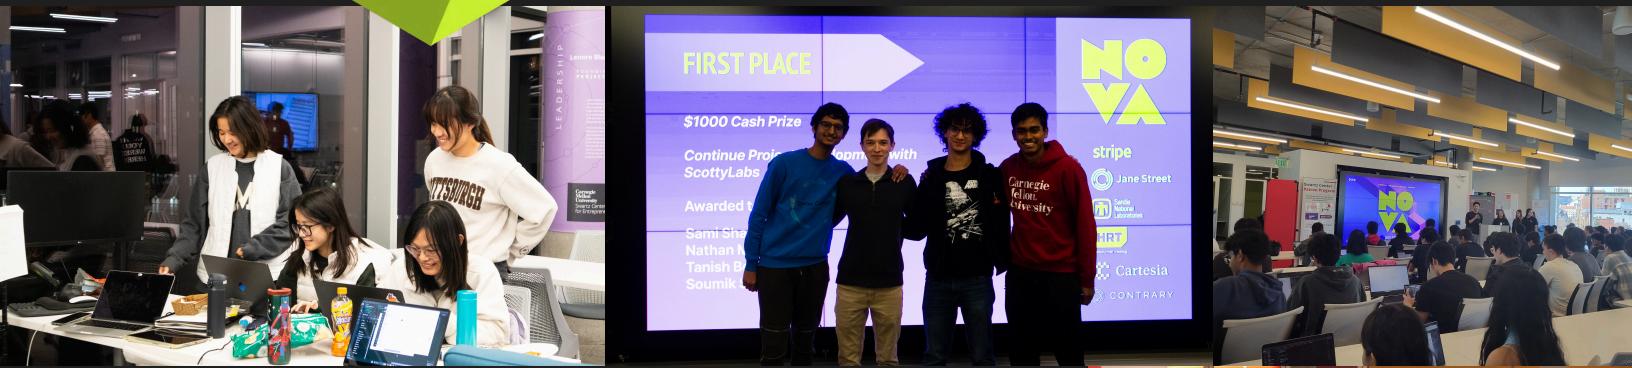

A large, abstract graphic composed of several 3D-style geometric shapes in shades of green, pink, and purple, arranged in a dynamic, overlapping composition against a dark blue background.

Nova

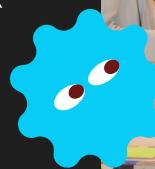

Nova: Emerging Technologies is a unique take on the hackathon format with a focus on the **bleeding edge**. At Nova, participants of all experience levels spend a week learning from **industry professionals and expert engineers** — at the end of the week, participants put their knowledge to the test with a **6-hour sprint hackathon**.

ScottySpark

ScottySpark **expo** taps into the creativity and innovation of **all CMU students**. The showcase brings designers, engineers, and entrepreneurs together to share **projects of any kind**.

SCOTTYSpark

Why Sponsor Us?

Working together, we can help you **reach our talented members** and **deepen** your company's presence throughout CMU.

As Carnegie Mellon University's leading software development club, **ScottyLabs** has become part of the campus fabric over the last 15 years. We are dedicated to creating technology to serve the CMU community and beyond: our products reach **10,000 students**, and we host TartanHacks, one of the largest east coast hackathons, with **700+ participants**.

Your support will help us take the organization to the next level:

Events

850+ hackers and 200+ projects at TartanHacks 2026 (mid-February), with more financial support for talent from outside of the region.

Projects

Over 80% of campus using ScottyLabs services, and support for new projects (e.g. CMUStudy, CMUCal) poised to benefit thousands of students.

Members

Innovative speakers, support for expensive infrastructure, and social events, enhancing our work and improving the culture.
